

12Ch/16Ch/18Ch Compact CWDM

Auxora's Compact CCWDM is an integrated optical device based on free-space technology and our expertise in lens simulation which can significantly improve optical performance and reduce packaging size to one quarter of the conventional CWDM modules.

The CWDM module features compact size, ultra-low IL and super thermal stability, which makes it to be used for Datacom/Telecom network applications with low-cost un-cooled lasers.

FEATURES

- Compact size & epoxy free optical path
- Good channel uniformity
- Ultra-low insertion loss
- Telcordia GR-1221 and GR1209 compliant

APPLICATIONS

- Access networks
- Metro WDM systems
- Telecommunications
- 4G/5G LTE mobile system
